Strategic Journeys for Building Logical Reasoning in K-12: Activities Across the Content Areas

Be a part of this **2-day training** and engage in situations that:

- stimulate rigorous logical reasoning skills,
- illustrate the 4 opportunities for questioning,
- formulate effective questioning techniques to support student query,
- cultivate 7 authentic writing opportunities, and
- demonstrate fluency and deeper understandings across all disciplines.

Texas and Jones Consulting
intentional • innovative • inventive
creating and sharing educational experiences

Come away with tools that can be used in any classroom, at any grade level and with any content from trainers who specialize in personalized, cutting-edge workshops.

Experience the effective use of each tool.

With over 50 combined years of classroom and training experience we have trained over 20,000 teachers across the country and abroad. See a few **testimonials** from happy participants.
